I confirm that the information I have given is correct to the best of my knowledge					
Signed _____ Date _____					
Print Name: <i>(If submitted by email please type this after “Signed”)</i>					

GUIDELINES

Kidneys for Life makes grants to a wide variety of research projects which directly benefit those people with renal and associated diseases covered by the Renal Unit/Transplant Unit (and outlying satellite units) based at Manchester Royal Infirmary, Salford Royal Infirmary & Royal Manchester Children’s Hospital. **A major objective of this grant scheme is to enable early stage ideas to be tested and pilot data to be collected which will allow researchers to apply for National Funding Schemes. Grants of up to £10000 can be applied for.**

The Trustees do not support:

- Funding for revenue of equipment which should normally be paid for by the NHS
- Overheads of any description
- Political groups for political purposes
- Religious groups for religious purposes
- Recurrent salary costs
- Recurrent costs
- The costs of maternity, paternity and sick leave for researchers together with other employment related costs
- Any indirect costs such as administrative or other overheads imposed by the Trust or other Institution
- Grants for research into complementary / alternative medicine

Who is eligible?

Kidneys for Life
Renal Unit, Manchester Royal Infirmary, Oxford Road, Manchester M13 9WL
Charity Registration No. 505256

- Applications are welcomed from staff working within renal/transplant based at Manchester Royal Infirmary, Salford Royal Infirmary and Royal Manchester Children's Hospital and their outlying satellite dialysis units
- Only one grant will be made to an individual within a twelve month period.
- Applications must be made by post or email on the Kidneys for Life own application form.
- **If you have a report outstanding for a previous grant your application will not be accepted until the report is received.**

Decision to fund

- The Trustees will not enter into correspondence concerning applications
- The Trustees reserve the right not to fund applications in any grant round
- The Trustees decision is final

Intellectual Property

Kidneys for Life makes any offer of a grant conditional upon the researcher pursuing with their employer the management of Intellectual Property that may develop from the research. Kidneys for Life retains its interest in the ownership of IP that arises as a result of the funded research work and must be notified of any IP developed using its charitable funds.

Successful Applications:

- If you are successful in your application you will need to sign and return a copy of letter confirming the aware of the grant by no later than 16th December 2022.
- Grants will be paid six monthly in arrears, on the production of an interim report and evidence of actual spend, the final payment request will need to be accompanied by a progress report if the full report is not available.
- Any delays, such as ethics approval, which will delay the payment of the grant need to be advised to Kidneys for Life as the earliest opportunity
- All grant monies should be claimed by 30 March 2024 unless permission has been sought to extend this date.
- You will be expected to give a short three minute presentation to the KFL Fundraising Team explaining your project after the six month point so that this information can be used by the team to gain support for KFL fundraising.

Applications should be sent to:
