

Paediatric Catheter Skills Day

Date 5th July 2024

9am - 4pm

Target Audience: Paediatric Community Nursing Teams

Venue: Ward 83 Large Training Room

2nd Floor, Royal Manchester Children's Hospital

(Please use Stem Cell Unit Entrance, turn left and knock on the door)

Cost: £100 per head

Payment: We will provide a booking link through our partnership with the charity, Kidneys For Life, where you can place your order for tickets for the day.

Syllabus to be covered (timetable will be sent out once attendees confirmed):

- Indwelling Catheter Insertion Simulation (competency signed)
- Indwelling urinary catheter care
- Troubleshooting indwelling catheters
- Catheter products and accessories e.g. types of free drainage bags, flip-flo valves
- Urine sampling from an indwelling urinary catheter
- Catheter flushing simulation (competency signed)
- Removal of indwelling urinary catheters
- Rationale and principles of intermittent catheterisation (CIC/ISC)
- Intermittent catheterisation simulation (competency signed)
- School/nursery training process
- Brief overview of other urological conditions and continence procedures e.g. vesicostomy, Mitrofanoff, bladder augmentation
- Q&A with clinical nurse specialist in paediatric urology

For more information or to reserve a place, please email sarah.colwill@mft.nhs.uk

Once your place has been reserved, attendance will be on condition of receipt of payment

You will be issued with theory and simulation competency certificates at the end of the day, and the session will equal 7 hours of CPD. Kidneys For Life will issue an attendance certificate to go towards your revalidation, following completion of a feedback questionnaire.
